

Hailing from the United Kingdom, Asking Alexandria have been breaking out of the underground music scene with a sound that is both heavy and hard-hitting, yet catchy and melodic. Time and time again, the same regurgitated hardcore sound is shot out and fed to kids all over the world. Asking Alexandria decided they wanted to try something a little different, they felt like showing everyone that there was more to hardcore than just breakdowns and hardcore riffs. Combining hardcore music with European Trance, soft catchy melodies and a sound more mature than just your average play by numbers hardcore outfit, Asking Alexandria are here, and they are here to stay. 2009 will see the boys releasing their debut album, touring relentlessly and making their mark on the hardcore scene with fists pumping.
